

Photographing The Animals You Love

Creating Artwork You'll Treasure Forever

*Canine & equine photography,
Oxfordshire & beyond*

You already know there is
something rare and
irreplaceable about the bond
you share with your animals.

We create portraits in the
places that matter most,
allowing time for trust,
personality and genuine
moments to unfold naturally.

The result is handcrafted
artwork that preserves a
relationship you'll cherish for a
lifetime.

Your photographer, Peter with his dog Nellie Noodle.

*Why choose Peter?
Because our animals
always come first*

At CherrillPhoto

I photograph just one client each day, allowing every session to unfold naturally. There are no time limits, no pressure on your dog or horse, and no pressure to purchase anything. My role is to create beautiful portraits and help you choose artwork you'll love for years to come.

Some kind words from happy clients

“

Peter was absolutely amazing during our shoot. We couldn't have asked for a better photographer. Very understanding and easy going while working with our two horses. It made our mother daughter shoot fun and very enjoyable.”

Kodi Adams,
Wiltshire

“

We had a brilliant morning with Peter. Who was incredibly patient with our two dogs, who both loved him, even my little spaniel who isn't keen on people. Peter then took his time with us, helping to decide the best pictures of the dogs. We absolutely couldn't fault our day and order with Peter! Highly recommend.”

Harriet Birdsey,
Buckinghamshire

“

It was great fun doing the photo shoot and Peter took some incredible photos of my Labrador. Ensuring I was 100% happy before going to print and then personally delivering the finished prints. Super happy with my treasured wall art.”

Fatima D'Andrade,
Oxfordshire
